

Community feedback from 5th July 2021

Name	Comment
A.H	Would be nice if old school was kept for the community as a hub for local people and organisations but it has to be viable and supported. I fear this may not happen or be possible, I am surprised building is not listed or would qualify for lottery money.
L.M	Good to see a building used for the community. Keen to support this project going forward.
A.C.	Men Shed
E.S.	Great idea
M.D.	To benefit the local community, bringing people together. Great to see people's time being put to good use to help others. Great idea
S.J.	Community Activities
J.C.	Use as a multi use Community Hub, allotment would be a great addition
C.F.	Community Space to be able to access to use with families who need our support
B.W.	Brilliant idea to maintain old Fife Street School and use it for the benefit of the community
H.P.	For all community groups to use the facilities
S.K.	Good building for community use for many local groups. Would be a disgrace to knock it down
M.S.	For the Shed people, I would be very pleased.
H.K	I would like to see the Centre being busy again with Clubs and Kids Groups and be somewhere people can use again
L.O	To move Macduff Market from Macduff Primary due to increase in rent. Here is perfect indoor/outdoor space and totally happy to move forward to having our monthly market here.
S.S.	Doodle Bugs Macduff under 5s
M.W.	That it be made into something for the community. Farmers market, nursery sounds great.
A.&L. S.	To see it as a vibrant, thriving centre for the community a space for Macduff to grow & meet needs & aspirations across all age-groups, interests and skills.
H.O.B	Community use, tackling men's health & community needs, including tackling loneliness & mental health.
S.S.	That the Men Shed take over the building and with all the ideas they have this can be a fantastic hub for old & young men & women.
L.G.	Great to see it being used, went to school here as a child, wouldn't like to see it not being kept as something for the community
A.S.	Men Shed or any ongoing projects

M.R.	A community owned & led facility, open to many & able to support various groups & benefit the Shed.
F.M.M.	To be able to rent the rooms for community use please
A.G.	That it is used. I think what you are proposing is brilliant.
R.H.	To be a focus for the local community and act as a centre for learning and community engagement. It would be great to have adult education classes available and to improve local health & well being through social learning
E.B.	Put building to good use and help the community
S.W.	That it can be used long term for Macduff community projects.
M.W.	Good use by local community groups.
D.S.	Very impressed with the building and would very much suit our needs.
D.B.	Would I still have access to rear of building? Good ideas.
G.R.	A place, Fife Street old primary school to keep for the community. An ideal building to convert into a Mens Shed. Good for other community groups to use as well. Especially those that struggle to hire a place and can't afford the hire cost or rent. Suggestions for the building would be a community kitchen where people can cook together/learn to cook/to eat healthily and then eat together.
E.W.	Stayed on the street for 44 years and never thought it was such an ideal building for community/training purposes. Wishing you all the best with your new venture.
ANON	Good effort by locals to preserve a decent building that has outlasted many modern structures
