Internal consultation with staff and other services affected.		
External consultation (partner organisations, community groups, and councils.	Parking survey information and public consultations since 2017.	This survey information did not specifically address issues within the EqlA but had a focus on the principle of paying for parking and the need to use payment to manage demand. One issue tackled through this work was clarification on fines for the misuse of disabled bays.
External data (census, available statistics).		
Other (general information as appropriate).		

Stage 3: Evidence Gaps.

Stage 7b: Do you have evidence or reason to believe that this policy, activity etc. will or may impact on socio-economic inequalities?

This is about trying to be fair to everyone. Part of that is realising that not everyone may be starting at the same place. Some individuals and families may have low income, may have very little or no savings which means they are living from month to month therefore changes to council policies/services may have a greater adverse impact on them.

On this basis you should consider potential impacts on individuals/families by:

- Place: on specific vulnerable areas or communities (SIMD, regeneration, rural) e.g. housing, transport.
- Pockets: household resources, (Income, benefits, outgoings) ability to access a service
- Prospects: peoples life chances e.g.access to, or ability to access: employment, training, services (such as council or health) or support.

Groups of people who may be impacted include, but not limited to:

<ul style="list-style-type: none"><li>• Unemployed</li><li>• Single parents and vulnerable families</li><li>• People on benefits</li><li>• Those involved in the criminal justice system</li><li>• People in the most deprived communities</li><li>• People who live in rural areas</li></ul>	<ul style="list-style-type: none"><li>• Pensioners</li><li>• Looked after children</li><li>• Careers including young carers</li><li>• Veterans</li><li>• Students</li><li>• Single adult households</li><li>• People who have experienced the asylum system</li></ul>	<ul style="list-style-type: none"><li>• Those leaving the care setting including children and young people and those with illness</li><li>• Homeless people</li><li>• People with low literacy/numeracy</li><li>• People with lower educational qualifications</li><li>• People in low paid work</li><li>• People with one or more protected characteristic</li></ul>

Stage 8: What are the positive and negative impacts?		
Impacts.	Positive (describe the impact for each of the protected characteristics affected)	Negative (describe the impact for each of the protected characteristics affected)
Please detail the potential positive and/or negative impacts you have highlighted above. Detail the impacts and describe those affected.	Increased availability of disabled parking bays in off street car parks due to no discount being available for misuse of a disabled bay  Greater turnover of spaces in town centres.	

Stage 9: Have any of the affected groups/areas been involved, engaged with or consulted?	
If yes, please give details of how this was done and what the results were. If no, how have you ensured that you can make an informed decision about mitigating steps?	Through public surveys and formal legal processes over the last 3 years we have a large number of replies from parties affected by the changes to car parking tariffs.

Stage 10: What mitigating steps will be taken to remove or reduce negative impacts?		
These should be included in any action plan at the back of this form.	Mitigating Steps	Timescale

Stage 11: What monitoring arrangements will be put in place? How the EqIA will be used to monitor the proposal

These should be included in any action plan (for example customer satisfaction questionnaires).	Car parking usage data and local surveys will be interrogated on a regular basis.
